

ABOUT ME

I'm Marco, a 26 years old self-taught Front-end developer, from Italy. In March 2018 after a minor car accident I decided it was time for a change, so I started studying Web Development. I quickly started getting really passionate, and in January 2019 I decided to bite the bullet and quit my job. I've been studying and freelancing Web Development ever since. During this time I also won a scholarship to study Front-end Web Development with OpenClassrooms. I believe in constant improvement, I'm always looking to learn more and do more.

I'm hard working, super curious, passionate, committed, and also a fast learner!
